GitHub: github.com/kattahemanth317-alt | Mobile: +91-9390023339

SKILLS

Languages: C, Python, Java

Frameworks: HTML and CSS, MySQL

Soft Skills: Problem-Solving, Communication, Analytical Thinking, Team Work

PROJECTS

Staff Leave Management System | Python Project Sep 2025

<http://kattahemanth317-alt.github.io/stafffolder/?utm>

- Designed and developed a Staff Leave Management System using Python, automating leave application and approval processes.
- Implemented 3+ user roles (Admin, Staff, Manager) with secure authentication and role-based access.
- Managed and processed 100+ leave records, reducing manual tracking and errors.
- Developed features for leave requests, approvals, status tracking, and reports.
- Improved system efficiency by 40–50% compared to manual record-keeping through automation.

Exploratory Data Analysis of Indian Crop Production | Python Sep 2025

- Performed Exploratory Data Analysis (EDA) on Indian crop production data using Python.
- Analyzed 50,000+ records across multiple states, districts, crops, and years to identify production trends.
- Used Pandas, NumPy, Matplotlib, and Seaborn to clean data, handle missing values, and visualize insights.
- Created 10+ visualizations including bar charts, line plots, and heatmaps to analyze crop yield, area, and seasonal patterns.
- Identified key insights on high-yield crops and regional performance to support data-driven decision-making.

TRAINING

Python, Machine Learning & Deep Learning Internship Nov 2025

- Completed an 8-week internship focused on Python programming, data handling, and analytical problem-solving.
- Developed and tested 5+ Machine Learning models (regression, classification, clustering) using NumPy, Pandas, and Scikit-learn.
- Performed data preprocessing on 10+ datasets, including cleaning, feature selection, and normalization.
- Gained practical exposure to Deep Learning concepts, implementing basic neural networks using TensorFlow/Keras.
- Evaluated model performance using metrics such as accuracy, precision, recall, and loss functions.
- Improved code efficiency and debugging skills by solving 20+ Python programming exercises.

ACHIEVEMENTS

- Certification in Exploratory Data Analysis using Python — May 2024

EDUCATION

Lovely Professional University — Phagwara, Punjab

Bachelor of Technology – Computer Science and Engineering; CGPA: N/A Aug 2026 – Present

Sri Jyothi Polytechnic College — Vijayawada, India

Diploma – Computer Science and Engineering; Percentage: 87% Aug 2023 – Apr 2026

Wisdom E.M School — Tirupati, Andhra Pradesh

Secondary Education; Percentage: 85% Completed 2023
